January 2018

Congratulations Graduates!

The Technology Transfer Program is proud to announce the graduation of 165 Roads Scholars and 144 Road Masters. They join the 2,867 Roads Scholars and 2,179 Road Masters who have already completed the program.

These dedicated men and women attended classes covering a variety of topics including drainage, low-cost roadway safety improvements, and leadership skills. Roads Scholar graduates attended 54 hours of training and Road Masters attended an additional 42 hours.

Graduations were held in December at Rough River Dam State Resort Park and Embassy Suites in Lexington.

Graduation photos can be found through the links below.

Congratulations to the recent graduates. We commend you for your commitment to improving your skills through training, and your hard work keeping Kentucky's roads safe and well-maintained.
